EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Heath on October 11, 2005.

IN THE CLAIMS

Claim 1, at the end of the claim, before period (.), insert

– , wherein the method is performed without merging –

Claim 12, at the end of the claim, before period (.), insert

– , wherein the system aligns and inserts data elements into the memory without merging –

Claim 19, at the end of the claim, before period (.), insert

– , wherein the method is performed without merging –

Cancel claims 11 and 24.

Allowable Subject Matter

Claims 1 – 10 and 12 – 23 are allowed.

The following is an examiner's statement of reasons for allowance:

When considered in light of the specification and in combination with all of the other limitations of the claims, the prior art of record does not fairly suggest or teach aligning and storing data into the memory without merging in the manner claimed.

For example, while Shepherd (US Patent No. 6,820,195) discloses a method of aligning data elements without using a special merge unit (figure 3, and col. 4, lines 49 – 54), but figure 3 clearly shows merging of data elements in two registers by using a logical OR operation.

Hao (US Patent No. 4,569,016) discloses a Rotate Immediate, the Mask Insert instruction (col. 13, lines 16 – 30), which does not seem to require any merging. However, this is a register-to-register instruction. Each of the instant claims requires a store instruction, which stores data elements to memory. Rotate and Store instruction (col. 18, lines 14 0 32) disclosed by Hao stores data elements to memory but the instruction requires merging.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
